REPORT ABOUT THE
ACTIVITIES
2022-2023

About us

8+
years of Expertise

10+
projects completed

20+
international and national
partners

10+
analytical studies

Key objective: to facilitate the transition to and implementation of a democratic, transparent and inclusive decision-making culture based on information.

100+
partners among Ukrainian
municipalities

Areas of work

e-democracy
and e-governance

development of analytical solutions
based on GIS, BI, AI technologies

democratic governance
based on information

digital transformation

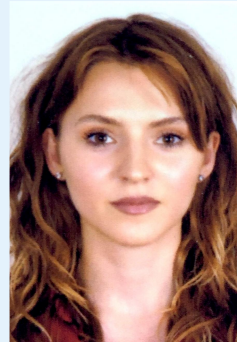

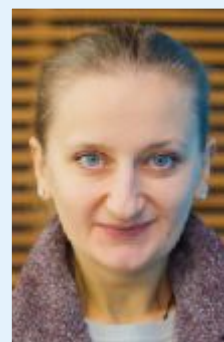

Transparent and effective
reconstruction, recovery based on
the deliberating democracy

local economic development, development
of government-business-community
cooperation

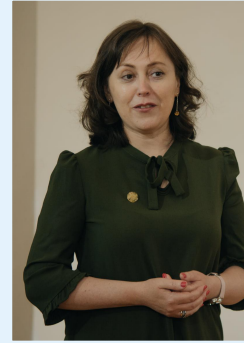

development of data registers
and systems, including those
based on open data for
decision-making

planning of "smart", "resilient",
eco-responsible cities/communities
based on the best international
practices and standards

Development

DREAM

RISE

Objectives:

A transparent, effective and democratic reconstruction process

Wide involvement and active participation of the public in the development and implementation of reconstruction projects

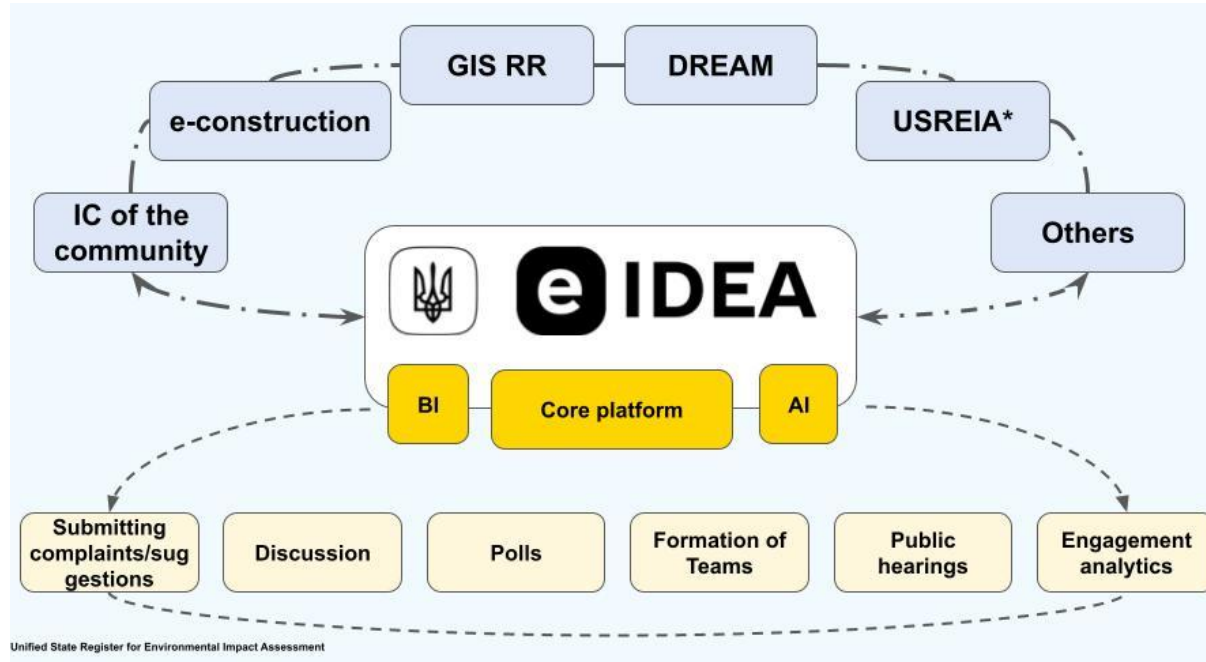

Minimising the risks of misappropriation of funds and reducing corruption risks

Outcomes:

- ✓ Presented at the Ukraine Recovery Conference
- ✓ Almost 70 publications
- ✓ 80+ members of the expert network
- ✓ Two waves of surveys on the level of involvement of all stakeholders in the recovery process
- ✓ 2000+ interviewed residents, IDPs, local authorities and NGOs
- ✓ Analytical dashboard of research results
- ✓ 1500+ representatives of civil society, business, government and experts involved in the development of the eIDEA platform's terms of reference
- ✓ Developed Participation indicator for assessing the state of involvement of residents in recovery and development processes

Electronic participation platform for recovery and development - eIDEA

The general architecture of eIDEA

Expert community

80+ members of the expert community

members:

- ✓ residents
- ✓ internally displaced persons
- ✓ local officials
- ✓ representatives
non-governmental organisations

Enhancing democratic processes in territorial communities

Objective:

Modernise tools of participatory democracy, including e-democracy, for effective and transparent local recovery and sustainable development of communities.

with assistance:

USAID
FROM THE AMERICAN PEOPLE

Economic profile of the municipality

Economic profile of the community (Vkursi Economy) is an innovative system of big data and visualized analytics on the economy, assets, and finances of a community, region, or business sector/cluster.

100+

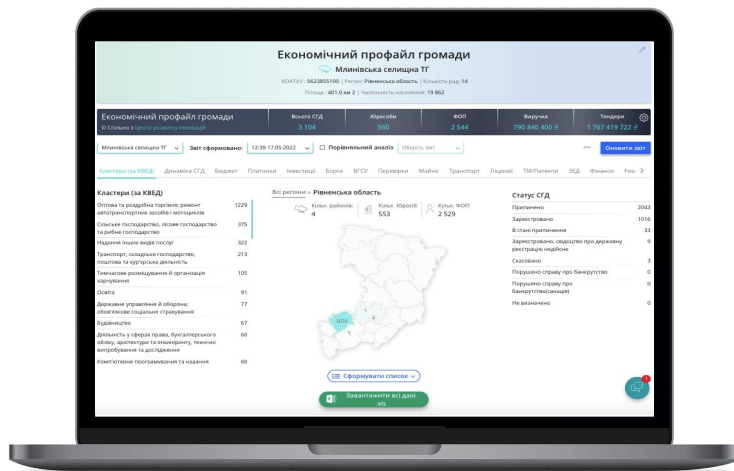

official data sources that are automatically updated

2-10 млн грн

direct economic benefit to local communities from the using

80%

of the interested communities

20+

analytical modules:

- business climate index
- budget revenues and expenditures
- tenders
- economic sectors/clusters
- taxpayers
- business dynamics (closure/opening) and migration (re-registration)
- individual business profiles
- business connections
- assets (land, real estate, transport, IP, etc.)
- debts/loans, mortgages
- export/import
- financial statements
- sanctions, relations with Russia and Belarus
- groups of risk factors, etc.

Business climate index (case study)

Індекс бізнес-клімату в Україні

Initiative for the economic renewal of Ukraine

The Centre for Innovations Development, the Entrepreneurship and Export Development Office, and the national project Diia.Business have launched the Initiative for economic recovery, entrepreneurship and export development of Ukraine.

Ключові цілі:

01. recovery of Ukraine's economy in the context of a full-scale war and after the victory against the aggressor
02. research on the state and perspective of business and the need for business support and export instruments
03. local economic development based on data analysis, development of smart cities/regions and competitive economic clusters

Outcomes:

- ✓ Almost 60 analytical publications
- ✓ 13 waves of surveys of businesses, CABs, and CABs on their assessments of the state and needs of businesses, the dynamics of business development, the business climate, etc. Average number of respondents: 700-1000 business owners and CEOs
- ✓ Analytical business registration dashboard
